### SUMMARY

I am a Java Developer with 1+ years of experience specializing in Spring Boot, microservices, and REST API development. An AWS Certified Developer - Associate (DVA-C02), I excel in software development, testing, and agile project management using Jira. Currently expanding my skills with Temenos Infinity (T24) training, I am passionate about delivering high-quality, scalable software solutions while driving innovation and growth.

### EXPERIENCE

#### Software Development Engineer

##### Maveric Systems, Pune, MH

- 05/2023 - Present Pune, India
- Developed scalable Java applications using **Spring Boot** and **REST APIs** for core and open banking solutions.
  - Led API integration with **WSO2** for seamless open banking functionality.
  - Designed a high-performance **Loan API module** in a core banking environment.
  - Designed and implemented key features for the **TalentShare Portal**, improving functionality and enhancing user engagement.
  - Built RESTful APIs for an employee portal using **MongoDB**, enhancing mentorship connections.Improved code quality with **JUnit** and **Mockito** testing, ensuring maintainability.
  - Collaborated with teams and stakeholders, resolving technical issues efficiently.

### PROJECTS

#### Open Banking

06/2024 - Present Pune, India

Loan API

- Led a team of two developers in the successful implementation of open banking solutions by integrating core banking RESTful APIs with WSO2.
- Developed a Loan API module using Java and Spring Boot within a core banking environment, ensuring high performance and reliability.
- Directed end-to-end development efforts, focusing on leveraging Spring Boot and microservices architecture for scalable solutions.
- Implemented measures to improve security, code quality, and maintainability, optimizing development workflows and enhancing overall application performance.

#### Talent Share Portal

10/2023 - 05/2024 Location

Employee Portal

- Description:**
  - Designed and developed RESTful APIs for internal employee portal.
  - Utilized MongoDB for efficient data storage and retrieval.
  - Developed unit tests using JUnit and Mockito for reliable code.
  - Collaborated with cross-functional teams and addressed technical issues efficiently.
- Responsibilities:**
  - Created a central portal enabling employees to connect with mentors based on technical skills.
  - Enhanced organizational mentorship by providing an intuitive platform for finding and interacting with mentors.
  - Ensured smooth communication with stakeholders and participated in daily scrum calls.

### KEY ACHIEVEMENTS

#### CERTIFICATIONS & AWARDS

- Recognized as the **"Best Wizard"** in the Project Charter.
- Completed comprehensive training on the Temenos Infinity platform (T24) and AWS.
- Java Programming Certification

### SKILLS

Core Java	C	C++
Angular (Basic)	Mysql	MongoDB
Spring Boot	Spring MVC	
Spring Security	REST API	Postman
API Gateway		

### EDUCATION

#### B.E. in Computer Engineering

Savitribai Phule Pune University, Pune, MH

08/2022

#### Diploma in Computer Engineering

MSBTE, Pune, MH

08/2019
